**Product Description:** Manufactured using new innovative 'point to point' (P2P) technology that binds two plies of towel together; Royal Touch P2P Compact Interleaved Towel is able to provide additional absorbency, softness and strength when compared to standard compact towels on the market. This premium quality towel is perfectly suited for all compact environments in which high-quality hand wipes are required. By coupling the absorbency of P2P with a hygienic single-sheet dispensing system, Royal Touch P2P Compact is able to guarantee less paper usage and thus significantly reduce costs. Designed to fit all compact dispensers on the market.
